In response to the June 18 2012 Request For Additional Information (RFAI) with regards to the March monthly report (02/01/2012 - 02/29/2012), The committee responds as follows: (1) The committee is continuing to develop a broader and economically feasible solution to contact all past donors who may have not provided certain elements of information. Given, among other matters, (a) the very large number of donors to this committee, (b) the variety of fundraising sources and processing platforms, (c) the many repeat small dollar donors who may or may not aggregate above the threshold, (d) the large number of donors by check, (e) the different ways in which donors may or may not enter or provide their information that creates duplicate entries in FEC File, and (f) the pace at which FEC File allows duplicate entries to be merged within the software - requiring up to 7 minutes per entry - this process is ongoing. The Committee anticipates being able to resolve this issue for all donors and reports no later than the due date of its August Monthly report. (2) the itemized transactions are identified with the account identifier "Credit Card" in each entry. The Commission has directed the Committee to alter its record keeping process. Because the alteration requires significant manual data entry, and the Committee is seeking to correct this on all reports, this process is ongoing but estimated to be completed no later than the due date of its August Monthly report.
